Introduction

Welcome

Welcome to my Assessment 2 of Subject: ·Apply advanced object-oriented language skills (ICTPRG532 - 14126 202220)·

What's is the program do

This is a Desktop application which is written in C# with .NET platform. This program is built to satisfy the Assessment 2 "Apply advanced object-oriented language skills (ICTPRG532 - 14126 202220)"
This application consists of 4 (four) forms:

1. The first form shows the 2D graphic of simple house picture.
2. The second form is drag and drop file which copy file path to the label box.
3. The third form is Doubly-Linked List that we can see when all the characters have been entered to the list, the contents of the list must be displayed in a label: first, in the forward direction, and then in the backward direction.
4. The fourth form is drag and drop for image file. We can drag an image (better small size image) then drop to picture box then it will display on it.
